MEDIA RELEASE

Sunday, 2 June 2019

Queensland Govt's "Climate Change Week", 2 -8 June 2019

The Queensland Government is committed to transitioning the state to a low-carbon, clean growth economy and adapting to the impacts of a changing climate.

As a part of this commitment, the Queensland Government will host political, business and community representatives from across Australia and the Asia-Pacific region at Queensland's first ever Climate Week from 2–8 June 2019.

[Climate Week QLD 2019](https://climateweekqld.com/) (<https://climateweekqld.com/>) will provide a forum for leaders and sub-national governments to share ideas and build a community of action against climate change.

Activities throughout the week includes a public program of arts, music, and panel discussions, a First Nations Summit, and [climate leadership training](https://www.climateRealityProject.org/training) (<https://www.climateRealityProject.org/training>) with former US Vice President Al Gore and the Climate Reality Project for between 800 and 1,000 people.

Community groups, businesses, universities, not-for-profit groups, schools, landholders and individuals have been invited to host a climate action event during climate week.

Householders' Options to Protect the Environment (HOPE) Inc. is hosting an information stall and 'plant' give-away outside Grand Central Shopping Centre, corner of Victoria and Margaret Streets, Toowoomba on Wednesday 5 June from 10am.

Please come along and collect some useful information on being "energy-wise" and a free shrub.

Frank Ondrus, President – HOPE Inc., ph 07 4639 2135
