

Southern Queensland Landscapes

Community based
natural resource
management
delivery in Australia
54 groups

Southern Queensland
Landscapes covers
the Murray Darling
Basin in Queensland
+ Paroo catchment

Southern Queensland Landscapes

- Whole of catchment focus
- Land management + water management + vegetation management + community and landscape resilience
- Requires inclusion of diverse land managers and communities

Southern Queensland Landscapes area

We are a community owned company and look after an area of just over 314,000 square kilometres (1.3 times the size of Victoria). Our website (www.sqlandscapes.org.au) sets out our projects.

We:

- help farmers find ways to ensure profitable, sustainable and ethical food and fibre production whilst taking care of our waterways, biodiversity and soil
- partner with landholders, First Peoples, governments, industry, academia, Landcare and community groups to learn more about our landscapes and share this knowledge
- find opportunities for landholders, First People, communities and industries to improve their economic, social and environmental outlooks

www.sqlandscapes.org.au

We acknowledge, respect and learn from the First Peoples of the 28 Nations in the Southern Queensland Landscapes area, and further afield. We pay our respects to the Elders: past, present and future, for they hold the memories, traditions, culture, science and knowledge, and hopes of Aboriginal and Torres Strait Island peoples across our nation.
