Re: Screening of “*Climate Changers*” documentary

Residents with an interest in climate change are invited to a special screening of the “*Climate Changers*” documentary at the University of Southern Queensland (UniSQ), Toowoomba on Wednesday 1 May 2024, lecture room L209, commencing at 2pm.

The premiere screening of *Climate Changers* was at the Sydney Film Festival in 2023. Directed by Johan Gabrielsson, and written and produced by Mark Forstmann, *Climate Changers* follows acclaimed scientist Tim Flannery as he searches for the missing ingredient in our fight against climate change – leadership.

Professor Tim Flannery poses questions such as *Where are the climate leaders? Who will drive change? How might they succeed where others have failed?* Tim Flannery poses these questions as he meets global leaders from the corridors of power and frontlines of climate change. *Climate Changers* delves into what frustrates Tim, what motivates him, and explores where Tim believes the solutions lie to humanity’s greatest challenge.

Director Johan Gabrielsson comments “*I wanted to make a film that asks the most pressing question in a changing global climate: do we have the leadership to take us to a greener future? As I followed Tim from his home on the Hawkesbury River, to the world’s largest global climate summit, I witnessed his amazing knowledge and empathy on full display. I hope *Climate Changers* offers inspiration and impetus to a greener tomorrow.*”

Co-hosts of this presentation, Householders’ Options to Protect the Environment (HOPE) Inc. and the School of Agriculture and Environmental Science (UniSQ) are proud to be screening this incredibly important film *Climate Changers*. This is a great opportunity for the community to come together and talk about the need for stronger leadership on dealing with climate change related issues.

To register your attendance please phone the HOPE office on 4639 2135 or email office@hopeaustralia.org.au .
