

HOPE Strategic Plan 2024 - 2029

FOCUS AREAS

Advocating for responsible and sustainable stewardship of the environment

What We Focus On

HOPE's Strategic Plan identifies eight priority Focus Areas. These represent the key environmental challenges where HOPE directs its advocacy, education and community engagement.

- 1 Government Decisions & Environmental Legislation**
- 2 Climate Change**
- 3 Water Security & Contamination**
- 4 Deforestation & Fragmentation**
- 5 Land & Soil Erosion**
- 6 Pollution - Water, Air & Land**
- 7 Pest Plants & Animals**
- 8 Animal Welfare & Extinction**

Strategic Scope

HOPE operates across local, state and national levels to advance its environmental priorities through coordinated advocacy, structured engagement and partnerships that support long-term environmental protection.

How HOPE Responds

The eight Focus Areas articulate HOPE's strategic direction and establish its environmental priorities, underpinned by a consistent and integrated stewardship approach applied across all areas of work.

Stewardship in Action

Public Advocacy
Shaping environmental law and policy

Community Education
Building informed and active communities

Research & Engagement
Supporting policy with credible analysis

Partnerships
Working together to strengthen impact

Applied Across the Eight Focus Areas

Intended Impact

Stronger Environmental Legislation
More effective environmental protections

Healthier Ecosystems
Resilient and restored natural systems

Protected Biodiversity
Safeguarded species and habitats

Informed & Engaged Communities
Active participation in environmental stewardship

HOPE works with communities, partners and policymakers to strengthen environmental stewardship across Australia.

Advancing environmental stewardship for a healthier and more resilient Australia.
