

# IPEN - INTERNATIONAL POLLUTANTS ELIMINATION NETWORK FOR A TOXICS-FREE FUTURE

*ELIMINATE HARMFUL CHEMICALS TO PROTECT PEOPLE & PLANET*

## ABOUT IPEN

IPEN is a global network forging a healthier world where people and the environment are no longer harmed by the production, use, and disposal of toxic chemicals.

Since 2004, IPEN has initiated and implemented several multimillion dollar (US) projects, including direct support to over 400 project activities in 80 countries.

## IMPACTS

- More dangerous chemicals banned, controlled or listed for review
- New resources for sound chemicals management in developing and transition countries
- Increased public awareness of chemical issues
- Elevated profile for safe chemicals management among governments, scientists, and social and environmental movements
